Proposed Rule Change
by

THE OPTIONS CLEARING CORPORATION

Pursuant to Rule 19b-4 under the
Securities Exchange Act of 1934

Item 1. Text of the Proposed Rule Change

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² The Options Clearing Corporation (“OCC” or “Corporation”) is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposed rule change to amend Interpretation and Policy (“I&P”) .01 to OCC Rule 602 (Customer-Level Margin Requirement), add I&P .02 to OCC Rule 602 (Customer-Level Margin Requirement) and add I&P .01 to OCC Rule 1103 (Notice of Suspension to Clearing Members). The purpose of the proposal is to achieve compliance with recent amendments to Part 39 of the Commodity Futures Trading Commission (“CFTC”)³ regulations and facilitate no-action relief issued by CFTC staff.⁴

The proposed changes to OCC Rules are included in Exhibit 5 of File No. SR-OCC-2021-002. Material proposed to be added to OCC’s Rules as currently in effect is underlined and material proposed to be deleted is marked in strikethrough text. All capitalized terms not defined herein have the same meaning as set forth in the OCC By-Laws and Rules.⁵

Item 2. Procedures of the Self-Regulatory Organization

The proposed addition of I&P .02 to OCC Rule 602 was approved by OCC’s Board of Directors at a meeting held on October 15, 2020. The proposed amendment to I&P .01 to OCC Rule 602 and the addition of I&P .01 to OCC Rule 1103 were approved by OCC’s Board of

Item 3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

A. Purpose

The purpose of revised I&P .01 to OCC Rule 602 is to achieve compliance with recent amendments to CFTC Regulation 39.13(g)(8)(ii).⁶ Departing from the historical practice of establishing distinct minimum initial margin requirements for hedge and speculative customer accounts,⁷ revised CFTC Regulation 39.13(g)(8)(ii) provides that a derivatives clearing organization (“DCO”) shall establish a minimum initial margin requirement that clearing members must charge their customers with respect to each product and portfolio that is commensurate with the risk presented by each customer account.⁸ The revised regulation also provides DCOs reasonable discretion in establishing a higher minimum initial margin requirement that clearing members must collect for categories of customers determined by the clearing member to have heightened risk profiles.⁹ As amended, I&P .01 to Rule 602 will allow OCC to achieve compliance with CFTC Regulation 39.13(g)(8)(ii) by requiring Clearing Members to determine which futures customers or categories of futures customers have heightened risk profiles and to collect, at a minimum, the amount of initial margin established by OCC for such customers or categories of customers from time to time. The proposal also eliminates the existing language in I&P .01 to OCC Rule 602 contemplating distinct margin

requirements for customer hedge and speculative positions.¹⁰

OCC also proposes to adopt I&P .02 to OCC Rule 602 to facilitate no-action relief granted by the CFTC. By way of background, in 2011, the CFTC adopted Regulation 39.13(g)(8)(iii) requiring each DCO to prohibit the withdrawal of funds from a customer account unless the clearing member holds a sufficient amount of the customer's assets to cover its initial margin requirements with respect to products cleared by the DCO.¹¹ In 2012, OCC adopted Rule 602(b) to satisfy this requirement.¹² CFTC staff has issued time-limited no-action relief pursuant to which a DCO may allow a futures commission merchant ("FCM") clearing member to treat the separate accounts of a customer as accounts of separate entities for purposes of CFTC Regulation 39.13(g)(8)(iii), provided that the clearing member satisfies several conditions set forth in the letter.¹³ Proposed I&P .02 creates an exception to OCC Rule 602(b) that allows FCM Clearing Members that satisfy the conditions established by the CFTC to treat separate futures customer accounts as accounts of separate entities for purposes of OCC Rule 602(b).

Finally, the proposed rule change adds I&P .01 to OCC Rule 1103, which specifies that OCC will publish a public notice of a decision to suspend a Clearing Member on its website as

¹⁰ OCC plans to distribute information used to calculate the minimum initial margin requirement for futures customer accounts and futures customer accounts with heightened risk profiles through a daily theoretical pricing file that is distributed to Clearing Members. OCC currently uses a similar approach for information used to calculate the minimum initial margin requirement for hedge and speculative positions of futures customers.

See also CFTC Letter No. 20-28, Comm. Fut. L. Rep. ¶ 34,798 (September 15, 2020) (extending the time-limited no-action relief with respect to CFTC Regulation 39.13(g)(8)(iii) until December 31, 2021).

soon as reasonably practical. OCC is adopting this I&P to achieve compliance with CFTC Regulation 39.16(c)(2)(ii), which requires each DCO to adopt rules describing the actions a DCO will take upon a default,¹⁴ which must include posting a public notice of a declaration of default on the DCO's website.¹⁵

OCC proposes to make the revisions to the I&Ps to OCC Rules 602 and 1103 described above effective on January 27, 2021. This effective date aligns to the compliance date for the revisions to Part 39 of the CFTC regulations.¹⁶

B. Statutory Basis

Section 17A(b)(3)(F)¹⁷ of the Act requires, among other things, that the rules of a clearing agency be designed to promote the prompt and accurate clearance and settlement of securities and derivatives transactions and protect investors and the public interest. OCC believes that the proposed rule change is consistent with Section 17A(b)(3)(F) of the Act.¹⁸ As noted above, the proposed revision to I&P .01 to Rule 602 protects investors and the public interest by more clearly describing which accounts are subject to increased initial margin requirements. The addition of .02 to OCC Rule 602 will promote the prompt and accurate clearance and settlement of transactions by accommodating no-action relief that is intended to help Clearing Members and their customers realize operational efficiencies for separate accounts. The proposed addition of I&P .01 to OCC Rule 1103 promotes the public interest by specifying that OCC will publish a

¹⁴ CFTC Regulation 39.16(c)(2)(ii) also requires DCOs to adopt rules providing for the prompt transfer, liquidation, or hedging of the customer or house positions of the defaulting clearing member, as applicable. Chapter XI of OCC's Rules addresses this portion of CFTC Regulation 39.16(c)(2)(ii).

public notice of a decision to suspend a Clearing Member on its website. The proposal also enables OCC to satisfy certain requirements set forth in Part 39 of the CFTC regulations and provides for a well-founded, clear, transparent and enforceable legal basis for its activities in accordance with SEC Rule 17Ad-22(e)(1).¹⁹ The proposed rule change is not inconsistent with the existing rules of OCC, including any other rules proposed to be amended.

Item 4. Self-Regulatory Organization's Statement on Burden on Competition

Section 17A(b)(3)(I) of the Act²⁰ requires that the rules of a clearing agency not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. OCC does not believe that the proposed rule change would have any impact or impose a burden on competition. Although this proposed rule change affects Clearing Members, their customers, and the markets that OCC serves, OCC believes that the proposed rule change would not disadvantage or favor any particular user of OCC's services in relationship to another user because the proposed amendments apply equally to all users of OCC. OCC also notes that two of the proposed revisions to OCC Rules are designed to achieve compliance with amendments to Part 39 of the CFTC Regulations, and, in adopting these amendments, the CFTC identified no anticompetitive effects.²¹ Given that the revisions to I&P .01 to OCC Rule 602 and I&P .01 to OCC Rule 1103 are narrowly tailored to achieve compliance with regulatory requirements for which no anticompetitive effects have been identified, OCC does not believe that these amendments would have any impact or impose a burden on competition. The addition of I&P .02 to OCC Rule 602 is intended to facilitate no-action relief related to an existing market practice and is not expected to have any impact on the competitive landscape.

¹⁹ 17 CFR 240.17Ad-22(e)(1).

²⁰ 15 U.S.C. 78q-1(b)(3)(I).

²¹ See 85 Fed. Reg. at 4849-50.

While OCC does not believe that the proposal would have any impact or impose a burden on competition, if any such impact or burden to competition were to exist, the proposed amendments would still be necessary to achieve compliance with applicable regulatory requirements and accommodate no-action relief granted by the CFTC. The amendments are appropriate, because they are narrowly tailored to achieve compliance with CFTC Regulations and facilitate no-action relief. Accordingly, OCC does not believe that the proposed rule change would have any unnecessary or inappropriate impact or burden on competition.

Item 5. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments were not and are not intended to be solicited with respect to the proposed rule change, and none have been received.

Item 6. Extension of Time Period for Commission Action

OCC does not consent to an extension of the time period specified in Section 19(b)(2) of the Act.²²

Item 7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2) or Section 19(b)(7)(D)

Pursuant to Section 19(b)(3)(A)(ii)²³ of the Act, and Rule 19b-4(f)(6)²⁴ thereunder, the proposed rule change is filed for immediate effectiveness, because it does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate. Additionally, OCC provided the Commission with written notice of its intent to file the proposed rule change, along with a brief description

²² 15 U.S.C. 78s(b)(2).

²³ 15 U.S.C. 78s(b)(3)(A)(ii).

²⁴ 17 CFR 240.19b-4(f)(6).

and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change or such shorter time as designated by the Commission.²⁵

In adopting CFTC Regulation 39.13(g)(8)(ii), the CFTC noted that the amendment was consistent with an existing interpretation permitting DCOs to establish initial margin requirements based on the type of customer account and by applying prudential standards that result in FCMs collecting initial margin commensurate with the risk presented by each customer account.²⁶ OCC does not believe that the amendment to I&P .01 and addition of I&P .02 to Rule 602 would significantly affect the protection of investors or the public interest as these changes simply conform the language OCC's Rules to the applicable CFTC Regulation and prior interpretive guidance and facilitate no-action relief that has been granted with respect to an existing practice. Finally, the addition of I&P .01 to OCC Rule 1103 would not significantly affect the protection of investors or the public interest as it codifies OCC's longstanding practice of posting a notice of a Clearing Member default to its website. The proposed rule change would not impose any significant burden on competition because, as described above, the requirements apply to all Clearing Members, do not disadvantage or favor any particular user of OCC's services in relationship to another user and achieve compliance with applicable regulatory requirements for which the CFTC identified no anticompetitive effects.

OCC requests that the Commission waive the 30-day operative delay contained in Rule

²⁵ Notwithstanding its immediate effectiveness, implementation of this rule change will be delayed until this change is deemed certified under CFTC Regulation 40.6.

²⁶ See 85 Fed. Reg. at 4812 citing CFTC Letter No. 12-08 (Sept. 14, 2012). In the relevant section CFTC Letter No. 12-08 provided, "[A] DCO may continue the practice of establishing customer initial margin requirements based on the type of customer account and by applying prudential standards that result in FCMs collecting customer initial margin at levels commensurate with the risk presented by each type of customer account. This is the case even if the differentiation between accounts is not stated specifically in terms of 'hedge' and 'non-hedge' accounts." See CFTC Letter 12-08 at 8.

19b-4(f)(6)(iii)²⁷ so that the proposal may become effective on January 27, 2021. As noted above, the proposal is intended to achieve compliance with amendments to Part 39 of the CFTC Regulations, which become effective on that date. Accordingly, OCC believes that the prompt implementation of these changes would be consistent with the public interest and the protection of investors.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

Self-Regulatory Organizations; The Options Clearing Corporation; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Relating to Revisions to Part 39 of the Commodity Futures Trading Commission Regulations

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on January 13, 2021, The Options Clearing Corporation (“OCC” or “Corporation”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared primarily by OCC. OCC filed the proposed rule change pursuant to Section 19(b)(3)(A)(ii)³ of the Act and Rule 19b-4(f)(6)⁴ thereunder so that the proposal was effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Clearing Agency’s Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change by OCC would amend Interpretation and Policy (“I&P”) .01 to OCC Rule 602 (Customer-Level Margin Requirement), add I&P .02 to OCC Rule 602 (Customer-Level Margin Requirement) and add I&P .01 to OCC Rule 1103 (Notice of Suspension to Clearing Members) to achieve compliance with recent

amendments to Part 39 of the Commodity Futures Trading Commission (“CFTC”)⁵ regulations and facilitate no-action relief issued by CFTC staff.⁶ The proposed changes to OCC Rules are included in Exhibit 5 of File No. SR-OCC-2021-002. Material proposed to be added to OCC’s Rules as currently in effect is underlined and material proposed to be deleted is marked in strikethrough text. All capitalized terms not defined herein have the same meaning as set forth in the OCC By-Laws and Rules.⁷

II. Clearing Agency’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, OCC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. OCC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of these statements.

(A) Clearing Agency’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(1) Purpose

The purpose of revised I&P .01 to OCC Rule 602 is to achieve compliance with recent amendments to CFTC Regulation 39.13(g)(8)(ii).⁸ Departing from the historical

The addition of .02 to OCC Rule 602 will promote the prompt and accurate clearance and settlement of transactions by accommodating no-action relief that is intended to help Clearing Members and their customers realize operational efficiencies for separate accounts. The proposed addition of I&P .01 to OCC Rule 1103 promotes the public interest by specifying that OCC will publish a public

¹⁶ CFTC Regulation 39.16(c)(2)(ii) also requires DCOs to adopt rules providing for the prompt transfer, liquidation, or hedging of the customer or house positions of the defaulting clearing member, as applicable. Chapter XI of OCC's Rules addresses this portion of CFTC Regulation 39.16(c)(2)(ii).

notice of a decision to suspend a Clearing Member on its website. The proposal also enables OCC to satisfy certain requirements set forth in Part 39 of the CFTC regulations and provides for a well-founded, clear, transparent and enforceable legal basis for its activities in accordance with SEC Rule 17Ad-22(e)(1).²¹ The proposed rule change is not inconsistent with the existing rules of OCC, including any other rules proposed to be amended.

(B) Clearing Agency's Statement on Burden on Competition

Section 17A(b)(3)(I) of the Act²² requires that the rules of a clearing agency not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. OCC does not believe that the proposed rule change would have any impact or impose a burden on competition. Although this proposed rule change affects Clearing Members, their customers, and the markets that OCC serves, OCC believes that the proposed rule change would not disadvantage or favor any particular user of OCC's services in relationship to another user because the proposed amendments apply equally to all users of OCC. OCC also notes that two of the proposed revisions to OCC Rules are designed to achieve compliance with amendments to Part 39 of the CFTC Regulations, and, in adopting these amendments, the CFTC identified no anticompetitive effects.²³ Given that the revisions to I&P .01 to OCC Rule 602 and I&P .01 to OCC Rule 1103 are narrowly tailored to achieve compliance with regulatory requirements for which no anticompetitive effects have been identified, OCC does not believe that these

amendments would have any impact or impose a burden on competition. The addition of I&P .02 to OCC Rule 602 is intended to facilitate no-action relief related to an existing market practice and is not expected to have any impact on the competitive landscape.

While OCC does not believe that the proposal would have any impact or impose a burden on competition, if any such impact or burden to competition were to exist, the proposed amendments would still be necessary to achieve compliance with applicable regulatory requirements and accommodate no-action relief granted by the CFTC. The amendments are appropriate, because they are narrowly tailored to achieve compliance with CFTC Regulations and facilitate no-action relief. Accordingly, OCC does not believe that the proposed rule change would have any unnecessary or inappropriate impact or burden on competition.

(C) Clearing Agency's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Written comments on the proposed rule change were not and are not intended to be solicited with respect to the proposed rule change and none have been received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Pursuant to Section 19(b)(3)(A)(ii)²⁴ of the Act, and Rule 19b-4(f)(6)²⁵ thereunder, the proposed rule change is filed for immediate effectiveness, because it does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate.

²⁴ 15 U.S.C. 78s(b)(3)(A)(ii).

²⁵ 17 CFR 240.19b-4(f)(6).

Additionally, OCC provided the Commission with written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change or such shorter time as designated by the Commission.²⁶

In adopting CFTC Regulation 39.13(g)(8)(ii), the CFTC noted that the amendment was consistent with an existing interpretation permitting DCOs to establish initial margin requirements based on the type of customer account and by applying prudential standards that result in FCMs collecting initial margin commensurate with the risk presented by each customer account.²⁷ OCC does not believe that the amendment to I&P .01 and addition of I&P .02 to Rule 602 would significantly affect the protection of investors or the public interest as these changes simply conform the language OCC's Rules to the applicable CFTC Regulation and prior interpretive guidance and facilitate no-action relief that has been granted with respect to an existing practice. Finally, the addition of I&P .01 to OCC Rule 1103 would not significantly affect the protection of investors or the public interest as it codifies OCC's longstanding practice of posting a notice of a Clearing Member default to its website. The proposed rule change would not impose any significant burden on competition because, as described above, the

²⁶ Notwithstanding its immediate effectiveness, implementation of this rule change will be delayed until this change is deemed certified under CFTC Regulation 40.6.

²⁷ See 85 Fed. Reg. at 4812 citing CFTC Letter No. 12-08 (Sept. 14, 2012). In the relevant section CFTC Letter No. 12-08 provided, "[A] DCO may continue the practice of establishing customer initial margin requirements based on the type of customer account and by applying prudential standards that result in FCMs collecting customer initial margin at levels commensurate with the risk presented by each type of customer account. This is the case even if the differentiation between accounts is not stated specifically in terms of 'hedge' and 'non-hedge' accounts." See CFTC Letter 12-08 at 8.

requirements apply to all Clearing Members, do not disadvantage or favor any particular user of OCC's services in relationship to another user and achieve compliance with applicable regulatory requirements for which the CFTC identified no anticompetitive effects.

OCC requests that the Commission waive the 30-day operative delay contained in Rule 19b-4(f)(6)(iii)²⁸ so that the proposal may become effective on January 27, 2021. As noted above, the proposal is intended to achieve compliance with amendments to Part 39 of the CFTC Regulations, which become effective on that date. Accordingly, OCC believes that the prompt implementation of these changes would be consistent with the public interest and the protection of investors.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments:

- Use the Commission's Internet comment form

THE OPTIONS CLEARING CORPORATION

RULES

* * *

CHAPTER VI - Margins

* * *

RULE 602 – Customer-Level Margin Requirement

(a) Each Clearing Member shall collect initial margin from its futures customers in such amount as is communicated by the Corporation from time to time.

(b) Each Clearing Member shall ensure that no futures customer of such Clearing Member withdraws funds from its customer account with such Clearing Member unless the net liquidating value plus margin deposits remaining in such account after giving effect to the withdrawal are sufficient to meet the customer initial margin requirement with respect to all confirmed trades cleared for such account.

. . . Interpretations and Policies:

.01 For purposes of Rule 602, ~~“hedge positions” shall be excluded from a Clearing Member’s margin calculations for the customer’s account holding such positions. Clearing Members shall determine which positions are “hedge positions” in a manner consistent with applicable regulations of the Commodity Futures Trading Commission and will identify such positions to the Corporation.~~ Clearing Members shall determine which futures customers or categories of futures customers have heightened risk profiles and shall collect, at a minimum, initial margin in the amount established by the Corporation for such customers or categories of customers from time to time.

.02 On July 10, 2019, CFTC staff issued Letter No. 19-17, which provides that a DCO may allow FCM clearing members that meet certain conditions to treat separate accounts of a customer as accounts of separate entities for purposes of CFTC Regulation 39.13(g)(8)(iii). Accordingly, OCC is providing an exception to Rule 602(b) and will allow FCM Clearing Members to treat separate futures accounts of the same beneficial owner as accounts of separate entities for purposes of Rule 602(b) during the ordinary course of business, provided that the FCM Clearing Member satisfies any and all applicable conditions established by the CFTC. This exception shall remain in effect until the no-action relief set forth in CFTC Letter No. 19-17 and any subsequent codification or extension of such relief expires.

CHAPTER XI – Suspension of a Clearing Member

* * *

RULE 1103 – Notice of Suspension to Clearing Members

Upon the suspension of a Clearing Member, the Corporation shall as soon as possible notify all Clearing Members of the suspension. Such notice shall state, in general terms, how pending transactions, open positions, stock loan and borrow positions, exercised option contracts, matured futures and other pending matters will be affected and what steps are to be taken in connection therewith.

. . . Interpretations and Policies:

.01 The Corporation will publish a public notice of a decision to suspend a Clearing Member on its website as soon as reasonably practicable.
