Futures Contract Adjustment

DATE:	Effective the opening of the business day after the merger is consummated. Contract adjustment is expected to occur approximately in the middle of 2019.

FUTURES SYMBOLS:	FNSR1D changes to FNSR2D

NUMBER OF CONTRACTS:	No Change
MULTIPLIER:	100 (e.g., a premium of 1.50 yields \$150)
NEW DELIVERABLE PER CONTRACT:	The deliverable for adjusted FNSR futures will be BASED ON THE MERGER CONSIDERATION WHICH ACCRUES TO NON-ELECTING FNSR SHAREHOLDERS (stated in terms of a current 100-Share deliverable). 1) 22 II-VI Incorporated (IIVI) Common Shares 2) Cash in lieu of 0.18 fractional IIVI shares 3) \$1,560.00 Cash (\$15.60 x 100)

Please note that the valuation would apply only to the FNSR2D deliverables in terms of current market value of the deliverable securities. The resulting price would not be equivalent to the daily settlement price of a futures contract month, whose determination would include cost of money carrying charges, adjustment for dividends, and other factors.

DELAYED SETTLEMENT

The IIVI component of the FNSR2D deliverable will settle through National Securities Clearing Corporation (NSCC). OCC will delay settlement of the cash component of the FNSR2D deliverable until the cash in lieu amount is determined. Upon determination of the cash in lieu amount, OCC will require settlement of the appropriate cash amount.

Important Exercise Considerations

Holders of FNSR Call options who wish to make their own elections with respect to FNSR shares received through exercise (for example, to receive a consideration other than the Non-Electing consideration) bear sole responsibility in determining when to exercise their options to permit a valid election. After the merger is consummated and the contract adjustment described above is effected, adjusted FNSR options will no longer call for the delivery of FNSR shares upon exercise. Call option holders will receive upon exercise (and Put holders deliver upon exercise) the non-electing merger consideration (on a per contract basis).

Delivery Settlement and Protect Provisions

Option contracts which are exercised, and physically-settled security futures contracts which mature, will require the settlement of all component securities included in the contract deliverable at the time of the futures contract maturation or option contract exercise, including rights, warrants, or similar instruments. Additional FNSR entitlements (such as due bills, eligibility to participate in tender offers, elections, etc.) may also automatically attach to securities deliverable upon physically-settled futures contract maturity or option exercise. Conversely, securities not included in the contract deliverable at the time of the option exercise or futures contract maturity, or other entitlements not associated with the underlying deliverable securities, may preclude holders of long futures contracts from realizing the benefit of such entitlements. For example, if a

physically-settled security futures underlying security is the subject of a tender offer, exchange offer, or similar event which expires *before* the futures contract reaches its maturity, the securities due to long futures holders upon maturity *will not* be eligible for participation in the tender/exchange offer. Conversely, if such tender offer, exchange offer or similar event expires *after* the futures contract matures, securities deliverable to long futures holders *will* be eligible for participation in these events.

Except in unusual cases, securities deliverable as a result of equity option exercise or the maturity of physically-settled security futures are settled through National Securities Clearing Corporation (NSCC).

Rights and obligations of Members with respect to securities settling at NSCC as a result of an option exercise or assignment or a physically-settled security future delivery or receipt obligation are governed by the rules of NSCC. NSCC has its own rules which enable purchasers of securities to protect themselves for value which may be lost if timely delivery is not made to them of securities subject to specific deadlines, such as the expiration of a tender offer, rights subscription, election, or similar event. These rules are generally called protect or liability notice procedures, and are intended to protect purchasers by binding the delivering parties to liability if such value is lost because timely delivery is not effected. Purchasers of securities must observe the rules and procedures of NSCC to avail themselves of such "protect" provisions of NSCC. Questions regarding these provisions should be addressed to NSCC.

Special Risks

Writers of call options and holders of short positions in physically-settled security futures at maturity who are uncovered with respect to deliverable securities subject to deadlines or cut-off times (such as expirations of tender offers, rights subscriptions, elections, or similar events) should be aware of a risk associated with the timing of their possible assignments or physically-settled security futures delivery obligations: Equity option exercise settlement and settlement of physically-settled security futures delivery obligations normally occurs 2 business days after the option exercise date or the security-futures maturity date. An uncovered call writer or uncovered short futures holder who has an obligation to deliver, and who waits until after assignment or futures maturity to effect purchase of the underlying security, may not be able to effect timely delivery by a regular-way purchase (2 business-day settlement) or call option exercise (2 business-day settlement after exercise). Such uncovered writer or short futures holder may nevertheless be subject to liability under the protect provisions of NSCC (see above) with respect to his delivery obligation, because he cannot make timely delivery. Additionally, Cash Markets (same-day, or less-than-2-business-day settlement) may not be available, or may be expensive for buyers of the underlying security.
